Subject: canyon mine

Carol, I'm on leave today and ready to catch a plane but wanted to respond to you about Deldi's emails on the Canyon Mine in AZ. Sorry I didn't have a chance to respond yesterday. I was involved in a round of several emails back and forth about this a few weeks ago because the press office got a call. (I think Deldi must not have been involved in that round of emails). The info and links (esp the USFS links) that the press office sent around explain the whole history. We do not have any action right now, as the plaintiffs have appealed the District Court's decision (which said the USFS's old EIS is still valid). If the Circuit Court opines differently, we may see a new EIS then. For now, we have no NEPA action, but Shelly Rosenblum is working on the NESHAPS permit. No need for Jamey or Carter to do anything right now.

Have a nice weekend!
Jeannie
